3. Claims 7-15 are allowed.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

Claim 7 is allowable over the cited art of record for at least the reason that the cited art of record fails to teach or reasonably suggest the method of manufacturing a diffractive optical element by transferring a mask pattern to a workpiece, as generally recited in Claim 7, the method including, in combination, after a first processing region determined by the first material is processed, the first processing region is covered by the second material and, subsequently, the first material is removed, and wherein while using a portion from which the first material has been removed as a second processing region, the first processing region determined by the first material is replaced by the second material

to cause a processing region inversion. Claims 8-15 are dependent on Claim 7, and hence are allowable over the cited art of record for at least the same reasons Claim 7 is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
